PART 1 – THE AGREEMENT AND ITS OPERATION

1 TITLE

This agreement shall be known as the Genesee & Wyoming Australia Pty Ltd (SA/NT) Rail Operations Enterprise Agreement 2017 (the “agreement”).

2 PARTIES TO THIS AGREEMENT

The parties covered by this agreement are:

- 2.1 Genesee & Wyoming Australia Pty Ltd – ACN 079 444 296 (referred to as “GWA” or the “employer”);
- 2.2 Employees of GWA employed under the classifications prescribed in clause 19 - *Rates of Pay*, of this agreement (the “employees”); and
- 2.3 Australian Rail Tram and Bus Industry Union SA/NT Branch (referred to as the “RTBU” or the “Union”), subject to the Fair Work Commission including a note to that effect in its decision to approve the agreement.

3 APPLICATION OF THIS AGREEMENT

This agreement applies to GWA, employees who are engaged in any of the classifications specified in clause 19 - *Rates of Pay*, at locations in South Australia (“SA”) or the Northern Territory (“NT”).

4 DURATION AND RENEWAL OF THIS AGREEMENT

- 4.1 This agreement will commence to operate in accordance with the Act, seven (7) days after the Fair Work Commission makes a decision to approve the agreement. The nominal expiry date of this agreement is 31 December 2019.
- 4.2 This agreement shall continue to operate after its nominal expiry date unless it is terminated or replaced in accordance with the Act.
- 4.3 The parties will convene six (6) months prior to the nominal expiry date of this Agreement to negotiate a replacement Agreement.

5 RELATIONSHIPS WITH OTHER AGREEMENTS, AWARDS AND OTHER INDUSTRIAL INSTRUMENTS

- 5.1 This agreement supersedes and replaces, in full, the Genesee & Wyoming Australia Pty Ltd (SA/NT) Rail Operations Collective Agreement 2014.
- 5.2 No award, collective agreement, pre-reform certified agreement, preserved state agreement or notional agreement preserving a state award will have any effect in relation to employees covered by this agreement while this agreement is in operation.

6 DEFINITIONS AND INTERPRETATIONS

In this agreement, the following definitions shall apply:

Casual employment	means a form of employment where an employee is not employed on a permanent basis and is employed by the hour, and which does not meet the definition of part-time or fixed term employment.
Continuous service	unless otherwise qualified within the body of this agreement, means unbroken service with GWA and shall also include, if applicable, unbroken service with Australia Southern Railroad (‘ASR’), provided the employment with GWA was continuous with the employment with ASR.
Driver only operation (DOO)	for the purpose of DOO shift length and DOO payment provisions in this agreement, occurs where a single qualified person is the only person assigned as the crew on the locomotive and has sole responsibility for the control, operation and procedures of the locomotive in either a DOO Shunt or DOO Mainline capacity.

To avoid doubt, DOO does not occur where two (2) qualified persons are assigned as the crew on the locomotive, notwithstanding that as part of working the train one of the crew may be required to undertake tasks off the locomotive as part of the duties for that train.

Emergency or unavoidable necessity

for the purposes of clauses 29.4 and 29.6.3 are defined as follows:

an “**emergency**” means an emergency due to an actual or imminent occurrence (such as fire, flood, storm, earthquake, explosion, accident, epidemic or warlike action) which endangers, or threatens to endanger, the safety of persons or destroys or damages, or threatens to destroy or damage property, and

an “**unavoidable necessity**” means a practically inescapable circumstance, occurring during the shift, necessitating working to be adopted to avoid, if possible, serious dislocation to train services. For example, this includes equipment and infrastructure failures, accidents and derailments but shall not include scheduling / rostering errors or general late running of trains.

Fixed term employment

means a form of employment where an employee is employed for a defined period or task and paid in accordance with the conditions for a full-time or part-time employee as applicable.

Full time employment

means a form of employment where an employee is employed on the full time average of thirty-eight (38) hours per week averaged over the roster cycle.

Home location

means the employee’s appointed operational base, or temporary operational base if the employee is working away from home on temporary transfer or rostered sub depot working.

Limited train movement

occurs where a qualified person is assigned to operate a locomotive for the purposes of terminal services activities. The moving of a locomotive on its own within defined maintenance facilities is not a “limited train movement” operation.

Ordinary hours

means the number of hours worked over the roster cycle necessary to average thirty-eight (38) hours per week averaged over the roster cycle.

Ordinary rate of pay

means the employees’ rate of pay as provided for at clause 19.1 plus any further components added to and forming part of the employees’ pay for all purposes and, as far as it is applicable, as varied by any salary packaging arrangement that may apply.

OHS&W Act

means the *Work Health and Safety Act 2012 (SA)* or other relevant State or Territory health and safety legislation, as applicable.

Part time employment

means a form of employment where an employee is employed on a regular basis on a number of hours less than the full time employment average number of hours.

Policy / policies

means a new or existing policy of GWA as amended from time to time.

Remote control

means a method of operation where a single qualified person operates a locomotive from outside the locomotive cab with the use of a radio controlled remote unit for yard / terminal / siding activities such as; shunt, load / unload, loop / siding entry and exit operations. The operation of a locomotive from within the locomotive cab using the remote unit, in lieu of the standard locomotive controls, is not regarded as a remote control operation. The application of this definition will require consideration of any rail safety procedures that determine the use or non-use of remote control.

Further, as far as payment of an allowance for this work is concerned the specific provisions at clause 23.2 and 23.3 must be observed.

Roster cycle

means a designated period over which work is arranged and the hours of work may be averaged. (Refer to clause 29.2 for conditions relating to changes to the length of the roster cycle.)

Stand alone	means the hours paid will not be included in the calculation of ordinary hours.
the Act	means the Fair Work Act 2009 (Cth).
Two qualified persons	may be two (2) drivers, a driver and a qualified second person or any other person, so qualified, and assuming the responsibilities of these roles.

In such cases, the employee shall be paid the ordinary rate for those hours up to the full time ordinary hours and paid overtime, in accordance with clause 21, for those hours in excess of the full time ordinary hours.
- 9.4.6 Unless otherwise provided, part time employees shall receive equivalent pay and conditions, on a pro rata basis, to those of full time employees in the same position.
- 9.4.7 Where the employer is proposing to introduce a part time arrangement it shall consider, where practicable, offering the part time arrangement to existing employees before seeking external appointments.

9.5 Fixed Term Employment

- 9.5.4 Other than in cases of serious misconduct, justifying summary dismissal, the employer may terminate the employment of a fixed term employee at any time during the term of employment by giving notice of one (1) week or such other period of notice required by the Act, or payment in lieu thereof, in whole or in part. A fixed term employee may terminate their employment by giving one (1) weeks' notice.
- 9.5.5 Upon termination, a fixed term employee shall be entitled to the payment of any accrued annual leave entitlements.
- 9.5.6 A fixed term employee shall generally not be engaged for a period in excess of twelve (12) months.

- 9.6.2 Casual employees shall be employed and paid by the hour and each separate period of employment shall be arranged by mutual agreement between the employer and the casual employee.
- 9.6.3 The minimum shift length for a casual employee shall be four (4) hours and where a lesser period is required to be worked a four (4) hour minimum payment shall apply.
- 9.6.4 Subject to clause 9.6.10, there shall be no obligation upon the employer to provide or guarantee ongoing employment to a casual employee beyond each separate and agreed period of employment.
- 9.6.5 The employer or the employee may terminate the casual employment arrangement by providing notice at the end of a shift, however, either the employer or the employee may provide a greater period of notice.
- 9.6.6 Casual employees shall be paid at the hourly rate equivalent to the full time classification they are engaged in plus a loading of 20%.

Such conversion shall be arranged by way of a written offer of employment consistent with the applicable form of employment prescribed elsewhere in this clause.
 - The employer shall not unreasonably decline any application made to convert from casual employment under the terms of this subclause and where such an application is declined the employee shall be provided with written advice together with reasons for the decision.

10 FLEXIBLE WORKING ARRANGEMENTS

Flexible working arrangements may be agreed between GWA and an individual employee in accordance with the model flexibility term at *APPENDIX E*.

11 TERMINATION OF EMPLOYMENT

Unless otherwise provided for in clause 9 or clause 12, termination of employment shall be in accordance with the following provisions:

11.1 Termination by the Employer

- 11.1.1 Termination of an employee's contract of employment may occur by the employer giving the employee four (4) weeks' notice.
- 11.1.2 In addition to this notice, employees over forty-five (45) years of age at the time of the giving of the notice and with not less than two (2) years continuous service are entitled to an additional weeks' notice.
- 11.1.3 The employer may, at its election, make payment in lieu of notice, either wholly or in part thereof.
- 11.1.4 Nothing in this agreement affects the employer's rights to dismiss an employee at any time without notice for conduct that would justify summary dismissal. If an employee is dismissed on this basis, the employee will be entitled to be paid for work only up to the time of dismissal.

11.2 Termination by the Employee

- 11.2.1 An employee may resign from employment by giving four (4) weeks' notice in writing.
- 11.2.2 In the event that the employee fails to give the prescribed notice, any pay due to the employee may be forfeited to the extent that the written notice given falls short of the required notice.
- 11.2.3 Where agreed, a shorter period of notice may be given without forfeiture of pay.

11.3 Abandonment of Employment

- 11.3.1 The absence of an employee from work for a continuous period exceeding five (5) working days without the consent of the employer shall be prima facie evidence that the employee has abandoned their employment.

- 11.3.2 The employer will make reasonable attempts to contact the employee to determine any reasons for the absence. This contact will include the employer writing to the employee at the employee's last known address informing the employee that the absence may result in the employee's services being terminated.
- 11.3.3 If within a further period of five (5) days the employee has not established, to the satisfaction of the employer, that they were absent for a reasonable cause they shall be deemed to have abandoned their employment and, at the employer's discretion, their employment may be terminated.
- 11.3.4 Termination of employment by abandonment in accordance with this subclause shall operate as from the date of the last attendance at work or the last day's absence in respect of which consent was granted whichever is the later.
- 11.4 Upon any termination of employment becoming effective, the employee must return all property belonging to GWA which is held by or under the control of the employee.

12 REDUNDANCY

- 12.1 Employees, other than fixed term and casual employees, who have their employment terminated due to redundancy shall be entitled to:
 - 12.1.1 two (2) weeks' notice, in lieu of any other period of notice required under this agreement, for each completed year of service, or ordinary pay in lieu, up to a maximum of twelve (12) weeks; and
 - 12.1.2 severance pay of three (3) weeks' ordinary pay for each completed year of service.
 - 12.1.3 **"Service"** for the purposes of this clause, means continuous service, as defined.
 - 12.1.4 **"Ordinary Pay"** for the purpose of this clause, means the employee's ordinary rate of pay plus an average of weekend payments calculated over the twelve (12) months up to the date of redundancy.
- 12.2 Where positions covered by this agreement are made redundant, the employer will apply the following options in managing such redundancies and these options, unless otherwise impracticable, shall be applied in the following order:
 - 12.2.1 Employees may be offered redeployment subject to suitable opportunities existing and employees accepting those offers including the requirement to undertake any necessary training or competency development.
 - 12.2.2 Examining opportunities for voluntary redundancies by calling for expressions of interest, however, the employer shall be under no obligation to accept all or any particular expression of interest.
 - 12.2.3 Apply involuntary redundancies where it is satisfied that the above alternatives have been exhausted or are inappropriate to the particular circumstances of the redundancies. Where multiple involuntary redundancies in the one classification at the one location are proposed employees shall be selected based on GWA's need for skills, competencies, qualifications and experience at the time.
- 12.3 Where the employer offers an employee suitable equivalent employment on no lesser wages and conditions, when viewed overall, and the employee rejects such an offer the employee's services may be terminated and the employer will not be obliged to pay the employee the notice and severance payments prescribed by this clause. For the purposes of clarity, the employee may agree to accept an offer of employment that is not equivalent alternative employment. In such cases where accepting a position with lower remuneration the employee will maintain the higher rate of pay, as defined in clause 12.1.4, for a period of twelve (12) weeks, but shall not be entitled to the severance pay under clause 12.1.2.
- 12.4 In the event of a transfer of business, and
 - 12.4.1 the employee is offered an equivalent position with the new employer on no lesser wages and conditions, when viewed overall, and
 - 12.4.2 that offer of employment recognises continuity of service,

the employee shall not be entitled to the notice and severance payments prescribed by this clause.

- 12.5 Employees whose positions become redundant shall be provided with access to applicable counselling services and reasonable paid leave for attendance at these support services.
- 12.6 Employees made redundant under the provisions of this clause shall, subject to suitability and availability, be given preference for re-employment should opportunities subsequently arise within the employer's operations.
- 12.7 Employees based at Whyalla whose positions are made redundant, and who lack qualifications in the National Code of Practice for the Defined Interstate Rail Network (NCoP for the DIRN), shall be provided with access to training in the theory component of the NCoP for the DIRN provided that they confirm their interest in receiving such training to the employer prior to termination of employment. The training will be scheduled at the employer's discretion, subject to the operational requirements of the employer. For avoidance of doubt, the employment of any such employee will not continue as a consequence of undertaking the training. Recipients of the training will not be paid by the employer for time taken to complete the training.

13 TRANSFER AND PROMOTION

13.1 Permanent Transfers

- 13.1.1 The employer may transfer an employee from one location / position to another, however, in considering the transfer the employer will give appropriate consideration to the employee's needs and circumstances as well as GWA's requirements.
- 13.1.2 A permanent transfer, at the employer's initiation, will generally arise due to a downturn in work or commercial / operational changes that result in a lesser requirement for employees at one location but a requirement at another location. Transfers resulting from this type of circumstance are aimed at redeploying existing surplus employees and to reduce redundancy and recruitment costs.
- 13.1.3 Where requirements or opportunities for transfers arise, the usual practice shall be for the employer to seek volunteers by calling for expressions of interest from employees wishing to be considered for transfer. However, this usual practice shall not limit the employer's ability to transfer a particular employee where there is a specific requirement of GWA or an employee.
- 13.1.4 The employer acknowledges that some employees' personal or family circumstances will prevent them from transferring permanently to another location and in such cases other alternatives, including but not limited to redundancy, will be considered.
- 13.1.5 Employees required to permanently transfer at the initiation of the employer, including term transfers in accordance with clause 13.7, which necessitates a change of residence will be paid relocation assistance in accordance with the employer's *Relocation Assistance Procedure*.

13.2 Employees Requesting a Transfer

- 13.2.1 Employees may request in writing a transfer from one location to another. The employer will consider the employee's request for transfer in conjunction with the operational needs of the business and the employee's current qualifications and route competencies.
- 13.2.2 The employer reserves the right to approve or deny all or any requests by employees for transfer to another location.
- 13.2.3 Employees who request and are granted a transfer to another location will not be entitled to relocation assistance in accordance with the *Relocation Assistance Procedure*.

13.3 Temporary Transfers

Notwithstanding the provisions of clause 13.1, an employee may be required to transfer temporarily to another location.

The principles to apply when arranging temporary transfers will be:

- 13.3.1 Calling for suitably qualified volunteers in the first instance, and
- 13.3.2 If there are no volunteers, or insufficient volunteers, then the application of a process determined at each location, where all employees are required to equitably share in the requirement to work away from home and the time spent away, and
- 13.3.3 Recognition that on occasions, due to either the employer's specific requirements or an employee's specific needs, a particular employee may or may not be required or able to temporarily transfer.
- 13.3.4 Unless a shorter period of notice is agreed to by the employee, a minimum of seven (7) days' notice shall be provided where an employee is required to go on temporary transfer for a period of seven (7) days or more.
- 13.3.5 The employer shall provide the employee with appropriate accommodation / expenses in accordance with clause 24.

13.4 Temporary Transfer – Interstate Locations

- 13.4.1 The employer may call for suitably qualified volunteers to transfer temporarily to a location within the operations of another company in the Genesee & Wyoming group of companies outside of SA or NT (the "interstate location").
- 13.4.2 No employee may be required to transfer temporarily to an interstate location without their consent.
- 13.4.3 When offering such a temporary transfer, a flexible working arrangement, in specific terms, to provide for consistency with the enterprise agreement or rostering practice that applies at the interstate location may be utilised.

25.2 The rates in the above table will increase in the first full pay period after the nominated date, in accordance with the agreement increases as stipulated in clause 19.1.

25.3 District allowances will not be paid when an employee is absent without pay.

25.4 An employee who temporarily resides away from home in accordance with the provisions of clause 24 will not be paid a district allowance.

25.5 If, through policy, the employer makes available a location payment for employees at the location stated in clause 25.1 and that location payment is of greater value to the employee than the allowance provided for in this clause then the location payment may be paid in lieu of the allowance provided for under this clause.

26 PAYMENT OF REMUNERATION

26.1 Employees shall be paid in fortnightly instalments on a day determined by the employer and advised to the employees.

26.2 All remuneration shall be paid into accounts, with a bank, building society or credit union, as nominated by the employee.

26.3 Any payments due shall be up to 2400 hours on the last day of the relevant pay period. That is, any payments for time which goes beyond the end of one pay period shall be attributed to and paid in the following pay period.

26.4 Unless specifically provided for elsewhere in this agreement, hourly based payments shall be calculated to the nearest fifteen (15) minutes as follows:

Under 8 minutes -	Nil
8 minutes to 22 minutes -	15 minutes
23 minutes to 37 minutes -	30 minutes
38 minutes to 52 minutes -	45 minutes
53 minutes to 60 minutes -	1 hour

26.5 The calculation of a full time employee's fortnightly rate is the hourly rate (at clause 19.1) multiplied by seventy-six (76). The per annum rate is the fortnightly rate divided by twelve (12) and multiplied by three-hundred and thirteen (313).

27 SALARY PACKAGING

27.1 An employee may, by separate agreement with the employer, enter into a salary packaging arrangement in accordance with the employer's policy, Australian Taxation Office requirements and other relevant legislation.

27.2 An employee entering into a salary packaging arrangement is accountable for compliance with their personal taxation obligations and will bear any costs associated with entering into the arrangement including the costs of obtaining financial advice.

27.3 The employer will not be liable for any costs should the law or the views on salary packaging change in the future.

27.4 The salary packaging arrangement will be on a genuine salary sacrifice basis where the ordinary rate of pay provided for under this agreement will be reduced by the value of the non-cash components of the package. However, payment of hourly rate based payments, such as overtime and weekend payments, shall be calculated on the full hourly rate for the work performed.

27.5 Salary package arrangements shall be on a fixed non-cash amount per pay period basis only. That is, employees will not be able to nominate a residual cash component with the balance being the non-cash component.

- 27.6 Employees shall be able to vary the value of their fixed non-cash amount on up to four occasions per calendar year.

28 SUPERANNUATION

- 28.1 The employer will make superannuation contributions on the employee's behalf, as provided by the *Superannuation Guarantee (Administration) Act 1992*, into a complying superannuation fund of the employee's choice.
- 28.2 Where an employee does not select a fund the contributions shall be made to Australian Super.

PART 4 – WORKING ARRANGEMENTS

29 WORKING HOURS

- 29.1 The ordinary hours of work shall be an average of thirty-eight (38) hours per week averaged over the roster cycle. Shifts will be arranged, at the employer's discretion, over the roster cycle where ordinary shifts and additional shifts may be worked over any of the twenty-four (24) hours of the day and any day of the week, Sunday to Saturday inclusive.
- 29.2 The length of the roster cycle shall usually be two (2) weeks in duration but may be increased in two (2) week increments in accordance with the following:
- 29.2.1 Changes in the roster cycle length shall be subject to the employer's approval based on the suitability of the proposed cycle length to the operations of the depot; and
- 29.2.2 The implementation of a change to the roster cycle length, following the employer's approval in principle, shall then be subject to majority support by the employees working on that roster.

29.3 Shift Lengths

Subject to the following provisions, employees may be rostered in shifts of any length between four (4) and twelve (12) hours.

29.3.1 Rostered Train Working Shifts

Maximum rostered shift lengths for train working are dependent on the train crew configuration as follows:

Train Crew Configuration	Shift Length
Two Person Operations:	
Two (2) qualified Drivers (including Assistant Drivers) with the crew knowing at least half the route each -	12 hours
Two (2) qualified Drivers (including Assistant Drivers) where the crew does not know at least half the route each but know the whole route between them -	11 hours
Locomotive driver working with an Advanced Trainee -	10 hours
Locomotive Driver working with a Trainee -	9 hours with capacity to extend to 10 hours in accordance with clause 29.3.2
Driver Only and Remote Control Operations:	
Mainline DOO	9 hours
DOO Shunt and Remote Control -	10 hours
Mixed DOO (mainline & shunt with or without Remote Control) on a case by case basis -	up to 10 hours
Or as otherwise provided for in clause 29.3.3	

- 29.3.2 In accordance with clause 29.3.1, the default maximum rostered shift length for a Driver working with a Trainee is nine (9) hours. This limitation arises due to the potential for the driver to have responsibility for the operation of a train for the whole shift.

Based on the nature of the work to be performed, rostered shifts for a Driver working with a Trainee may be extended to ten (10) hours. The extension to ten (10) hours may

apply to shifts with less than five (5) hours mainline driving and there are other tasks, such as car driving, which can be undertaken by the Trainee.

It is acknowledged that some Driver / Trainee shifts extended to ten (10) hours under this provision may experience circumstances during the course of the shift which result in the potential for more than five (5) hours mainline driving. In such circumstances the shift can remain a ten (10) hour shift where the Driver indicates his/her fitness to continue otherwise the shift shall revert to a nine (9) hour shift.

- 29.3.3 DOO and Remote Control maximum rostered shift lengths provided for in clause 29.3.1 are further qualified in *APPENDIX D – DOO and Remote Control Shift Lengths*. This appendix deals with operations already in place at the time of making this agreement and a process for any future proposal for DOO / Remote Control operations on a case by case basis in accordance with the appendix.

29.3.4 Learning Roads

Maximum rostered shift length for train crew learning roads as a third person on a driver / driver train or under a shared system where both drivers know at least half the route to be worked and learnt will be twelve (12) hours.

29.3.5 Short Shifts

Rostered shift lengths between four (4) hours and seven (7) hours shall not be used for rostered operational work, unless otherwise provided for under relay work at clause 30.3, but may be used for circumstances including; travel, meetings, training, medical or other similar appointments.

29.3.6 Minimum Shifts

Additional or call out shifts may be less than four (4) hours, however, a minimum payment of three (3) hours, at the additional hours rate, shall apply for any unrostered additional hours that are not continuous with an employee's ordinary shift.

29.4 Extension of Rostered Hours

Subject to the following provisions, employees may be required to work reasonable hours beyond the rostered hours due to operational requirements.

- 29.4.1 For reasons other than an emergency or unavoidable necessity (as defined at clause 6) employees may decline to work beyond twelve (12) hours.
- 29.4.2 In the case of an emergency or unavoidable necessity employees may be required to work shifts up to a maximum of sixteen (16) hours. The working of shifts up to the maximum sixteen (16) hours shall be subject to the employees' indication of their fitness to continue and employees may decline to undertake safeworking or car driving duties after having been on duty for twelve (12) hours.
- 29.4.3 In the case of an emergency or unavoidable necessity on DOO or Remote Control shifts, the maximum rostered shift length as provided at clause 29.3.1, or as specifically provided for in *APPENDIX D – DOO and Remote Control Shift Lengths*, may be extended by a maximum of fifty (50) minutes and the working of this extension shall be subject to the employees' indication of their fitness to continue.

29.5 Maximum Hours and Shifts

- 29.5.1 Employees may be rostered up to a maximum of eighty-four (84) hours per fortnight averaged over the roster cycle, however, employees may work more than the maximum rostered hours if requested and the employee is prepared to do so.
- 29.5.2 The maximum number of ordinary shifts shall be an average of five (5) shifts per week averaged over the roster cycle, and
- 29.5.3 The maximum number of additional shifts (rostered or unrostered) shall be an average of one (1) shift per fortnight averaged over the roster cycle.

29.6 Breaks between Shifts

- 29.6.1 Employees are entitled to minimum rostered breaks between shifts, unless otherwise provided for under relay work at clause 30.4, as follows:

At the employee's home location -		12 hours
At a book off location, following a shift length:	Of up to 10 hours -	8 hours
	Between 10 and 12 hours -	10 hours

- 29.6.2 A rest period of at least twelve (12) hours shall be provided following any shift exceeding twelve (12) hours.
- 29.6.3 If an employee is called out to attend to an emergency or unavoidable necessity without having had the minimum rostered break between shifts the following shall apply:
- If an employee has attended a callout, without having the minimum rostered break, the employee shall be entitled to a minimum break of eight (8) hours following the call out before being required to commence their next period of work, and
 - the employee will not lose ordinary pay and will not be required to work additional time as a result of being provided the above rest period, resulting from a call out.
- 29.6.4 An employee is entitled to a minimum break of thirty-six (36) hours after the employee has worked ten (10) consecutive shifts of any duration or four (4) consecutive shifts of ten (10) hours or more. If the majority of the depot is in agreement a maximum of six (6) consecutive ten (10) hour shifts may be rostered provided fatigue management guidelines are adhered to and a minimum of two (2) RTO's as per *APPENDIX C – Train Crew Rostering Principles* clauses C-4.11 and C-4.13.
- For the purpose of this provision, “**consecutive shifts**” are shifts where the break between shifts is less than twenty-four (24) hours.
- 29.6.5 For the purpose of determining the minimum breaks between shifts provided for in this clause the period off duty shall be calculated from the time the employee is released from duty, and
- the released from duty time shall recognise any time the employee is driving or travelling on duty (not personal travel) at the end of a period of work; and
 - in the case of rostered rest away from home at book off locations the rest period will commence and finish at the resting point.
- 29.6.6 The minimum rostered breaks between shifts provided for in this clause (and clause 30.4) may, subject to satisfying fatigue management principles, be reduced as follows:
- On an individual basis, an employee may be requested to resume work for the next shift up to one (1) hour earlier than the minimum rostered break where circumstances require and the employee is prepared to do so.
 - On a collective basis, the minimum rostered breaks for a particular operation may be reduced by up to one (1) hour, on a case by case basis, through the roster consultative process and majority support by the employees required to work that roster.

29.7 Book off working

Rosters incorporating “book off” working shall incorporate a return to the employee's home location that optimises crew utilisation and reduces crew dwell time away from their home. Alternatives may include:

- 29.7.1 Observing a first in first out rostered train working return;
- 29.7.2 Facilitating crews returning to their home location by driving a car, either at the end of the train working or after the required rest period, subject to shift length limits; or
- 29.7.3 In lieu of being booked off, being transported as a passenger back to the employee's home location in accordance with the following:
- the employee may remain on duty for up to sixteen (16) hours from sign on;
 - the employee is not permitted to undertake work, including car driving, after the applicable maximum rostered shift length;
 - the applicable rest period shall commence from sign off at the home location and
 - where the combined duration of the work and travel was rostered then all time shall count towards the roster cycle hours or if it occurs due to out of course working any time over the rostered shift shall be paid as overtime in accordance with clause 21.

29.8 Work Commencement

- 29.8.1 Subject to consultation with the affected employees, employees may be rostered to commence work at a location other than their usual sign on / sign off location.
- 29.8.2 If an employee is required to commence at a location which is further in time or distance, by the quickest or shortest route (having regard for prevailing conditions), the employee shall be compensated by one or both of the following, as applicable:
- paid the employee's ordinary rate of pay, on a 'stand alone' basis, for any additional commuting time in excess of fifteen (15) minutes with such time not counting as part of the shift; and
 - if the employee utilises their private motor vehicle, the employee shall also be paid for any additional distance travelled in accordance with the rates provided for at clause 24.5.
- 29.8.3 The additional travel shall not be more than thirty (30) minutes in each direction and, if applicable, the minimum rostered break between shifts shall be extended by the additional travel time.
- 29.8.4 It is the employee's responsibility to convey themselves to their place of work, however, where the application of this clause provides genuine hardship to the employee then alternatives, including but not limited to providing transport at no cost to the employee, may be considered.
- 29.8.5 In the application of this clause, the employer shall consider options which provide the least impact on employees in terms of commuting time and impact on rest periods and are as cost effective as reasonably possible.
- 29.8.6 If an employee signs on at their home location and travels to another location to commence work, the time spent travelling from sign on at their home location to the location of commencement of work, will be paid at the employee's ordinary rate of pay and will count towards the employee's ordinary hours. For the purposes of clarity travel includes being a passenger in the crew van not rostered for relay.

29.9 Meal Breaks

- 29.9.1 On any shift that exceeds five (5) hours, employees shall be entitled to meal breaks as follows:

Train crew of two (2) qualified drivers (including Assistant Drivers) with the crew knowing at least half the route each -	To be taken during the shift by driver rotation.
Train crew configurations with one (1) qualified driver (DOO and Driver and Trainee / Advanced Trainee) -	A paid break of twenty (20) minutes for shifts up to ten (10) hours, and where applicable, a further break of ten (10) minutes for shifts over ten (10) hours. Breaks to be taken in accordance with clause 29.9.2
Other than train working operational shifts -	A paid break of twenty (20) minutes for shifts up to ten (10) hours plus a further break of ten (10) minutes for shifts over ten (10) hours. Breaks to be taken in accordance with clause 29.9.2
Non-operational shifts (e.g., training courses, meetings etc) -	A paid break of twenty (20) minutes or an unpaid meal break of between thirty (30) minutes and one (1) hour.

- 29.9.2 The actual taking of a meal break as prescribed by this clause will be at the employee's (or train crew's) discretion. However, where the employee does request a meal break the timing of the meal break shall be agreed between the employee and train controller / supervisor (as applicable) so as to cause the least disruption to the operations. In the event of there being no agreement the timing of the breaks shall be follows:
- the first break shall be taken no later than the fifth hour of the shift, and
 - for shifts in excess of ten (10) hours, the second break of ten (10) minutes shall be taken no later than five (5) hours after the first meal break.

29.10 Rostered for work but not required

- 29.10.1 If an employee is advised less than two (2) hours before commencing work that the employee is not required for work then the employee will be paid a 'stand alone' payment of two (2) hours pay at the employee's ordinary rate of pay.
- 29.10.2 If an employee is rostered for work and given at least two (2) hours' notice before the employee's rostered commencing time that the employee is not required for work, or has an agreement with the employee's manager / supervisor that the employee will accept a lesser period of notice, the employee shall not be entitled to the payment.
- 29.10.3 If an employee has presented for work as rostered and is advised that he / she is not required the employee will be deemed to have commenced the shift and provided alternative work or released from duty and paid for the rostered shift.

29.10.4 Cancellation of a relay train

A relay trip is made up of several shift rotations for the duration of a journey.

In the event that a relay train is cancelled after the crew have presented for work they will either:

- a) If the journey has not commenced, be offered alternative work; or,
- b) If the journey has commenced, be paid to the end of the shift rotation they are working including crew van.

Alternative work may be offered to make up any hours towards the guarantee.

In the event that a relay train is cancelled and less than twenty-four (24) hours' notice is provided to the crew, reimbursement for meals purchased for the journey may be sought. Reimbursement will be approved upon provision of a valid tax invoice for expenses incurred, and the food items matching the invoice being relinquished to the employee's manager / supervisor. Reimbursement will be capped at one (1) day of the Shift Workers on Temporary Transfer allowance rate, prescribed at clause 24.3.3.

29.11 Rostering and Fatigue Management

- 29.11.1 Rosters shall be arranged in accordance with fatigue management principles and in the case of train crew, *APPENDIX C – Train Crew Rostering Principles* shall also be observed. It is a term of this agreement that the Rostering Principles may be varied during the operation of this agreement through agreement with the affected employees.
- 29.11.2 GWA has a fatigue management policy and procedure. Fatigue management is an evolving area and the parties may, through the introduction of Codes of Practice and through consultation, examine and implement further fatigue management principles, strategies and processes. Issues that may be considered for further examination include:
- The opportunity for quality and quantity of sleep particularly addressing the "time of day" effect and the nature of the work being undertaken;
 - Considering the application of the provisions of this agreement when compiling rosters in particular, issues such as the number of consecutive shifts (particularly night shifts), shift lengths and breaks between shifts;
 - Consideration of the needs of employees in balancing the competing requirements of their work and personal, family, domestic and social responsibilities.

30 RELAY WORKING

Under this agreement relay working may be undertaken in accordance with the following provisions. These relay work provisions are to be read in conjunction with the working hours provisions in clause 29, however, where there is a conflict between the clause 29 provisions and these provisions then these provisions shall prevail.

30.1 Definition

Relay working is a method of crewing a train to permit continuous operation of the train and requires employees to rotate between work on the locomotive and resting in a crew van that is part of the consist of the train.

30.2 Application & Implementation

30.2.1 The relay work method of crewing shall be an option available to the employer in any of its SA/NT operations. To avoid doubt, SA/NT operations includes operations which are crewed by SA/NT crews into and out of other States/Territories.

30.2.2 A train may be crewed under any of the available crewing configurations provided for in this agreement for different parts of a train's journey. This includes the ability to commence or cease crewing a train under a relay configuration at any stage of the train's journey.

The capacity for the employer to crew the train under the available crewing configurations shall not be taken to convey the ability to change the last leg of a relay operation to a twelve (12) hour driver / driver configuration.

30.2.3 Implementation of new (or revised) relay working will, in addition to satisfying any regulatory requirements, be subject to consultation between the employer and the employees required to undertake the work. Employees may choose to be represented by a third party in such consultations. This consultation shall include discussion on issues such as, but not limited to:

- Frequency of relay operations;
- Rostering considerations;
- Distribution of work through the roster;
- Crewing configurations;
- Fatigue management considerations;
- Relay Operation working time;
- Time spent in crew van; and
- Crew amenities.

30.3 Working arrangements

30.3.1 Relay crews shall comprise of a four (4) person crew (two (2) working / two (2) resting) in accordance with the following trip, shift, rest limitations:

Maximum duration of relay trip*	Maximum work shift per rotation	Minimum rest break per rotation
54 hours	9 hours	8 hours
* The maximum duration of a relay trip is calculated from sign on at the home location to sign off at the home location. Or, in the case of a relay trip that involves a book off away from the home location then the outward and return trips will be calculated as discrete trips.		

30.3.2 Due to the nature of relay working the seven (7) hour minimum for rostered operational work provided at clause 29.3.5 shall not apply to relay shifts.

30.3.3 Relay working may involve trips where the operation is continuous and the crew cycles through the work / rest rotation for the full duration of the relay job. In other circumstances the relay operation may involve the train terminating and the whole crew going to rest in accommodation away from the crew van.

There may be some circumstances where the whole crew may be required to rest in the crew van. This may arise due to the operation requiring a quick turnaround and / or there being no suitable accommodation. Where such circumstances are proposed the employees involved shall be consulted prior to the operation being implemented.

30.3.4 Relay work / rest rotations will be determined through consultation having regard for the length of the trip, operational requirements, the equal allocation of work / rest and the collective preferences of the employees required to undertake the work.

It is acknowledged that the current work / rest rotation for four (4) person relay work on the Darwin corridor is eight (8) hours work / eight (8) hours rest with the crews exercising flexibility to accommodate shift changes at appropriate times so as not to unreasonably impact on the operations.

New or altered operations may be better suited to a different rotation and in considering alternative rotations as part of the consultation process the eight (8) hour rotation will be regarded as the default position.

30.4 Rostered Rest at Book Off locations

- 30.4.1 Subject to clause 30.4.2, relay trips involving book offs shall have the following minimum rostered rest periods at the book off location:

Following a relay trip:	of up to 32 hours -	10 hours
	over 32 hours -	12 hours

- 30.4.2 In providing rest periods at book off locations, as provided for at clause 30.4.1, the provisions of clause 29.6.5 shall also apply and the rest periods may be reduced by up to one hour in accordance with clause 29.6.6.

- 30.4.3 Where operational / return working requirements are such that the prescribed minimum rest periods may be impacted then the minimum break is to be accommodated by the two (2) crews having staggered sign off / sign on times as follows:

- one (1) crew going to rest immediately on arrival and the other crew completing any terminal operations before going to rest, and / or
- where there is terminal / preparation work to be performed before departure one (1) crew signing on earlier to undertake this work.

30.5 Break at home after a relay job

- 30.5.1 On return to the employee's home location following a relay operation the employee shall be entitled to a minimum break as follows:

Duration of Relay Trip	Minimum Break at Home
Less than 32 hours	16 hours
>32 hours and <= 48 hours	24 hours Where the sign off time is between 2000 hours and 0700 hours the minimum 24 hour break shall start from 0700 to ensure a full night in bed.
>48 hours and <= 64 hours	36 hours
>64 hours and <= 92 hours	48 hours
>92 hours	62 hours

- 30.5.2 For this clause the term "Duration of Relay Trip" shall mean the time from sign on at the employee's home depot to sign off at the employee's home depot, for any trip where some or all of the work includes relay working. For clarity, this includes both trips which include booking off and those which do not, as well as trips involving travelling one way and working relay the other.

- 30.5.3 The minimum break at home under this clause may be reduced by up to one (1) hour in accordance with clause 29.6.6.

- 30.5.4 In the event of an emergency or failure where the relay trip is broken with an unplanned book off, and the duration of the trip is shortened, on completion of the relay the employee will be entitled to the same break at home as per clause 30.5.1 as they would have been originally entitled to.

30.6 Remuneration

- 30.6.1 During a relay operation time spent actually working will be paid at the employee's ordinary rate of pay, from sign on to sign off, plus weekend work payments, if applicable.

- 30.6.2 During a relay operation time spent in the crew van will be paid at the applicable Crew Van rate in accordance with clause 30.6.3. This time is paid on a 'stand alone' basis and will not count as working time but may be used towards payment of the ordinary hours in accordance with clause 30.7.

30.6.3 Crew Van Rates

Rates for time spent in the crew van will be a fixed amount, 100% of the individual employee's ordinary rate of pay as provided for at clause 19.

30.7 Crew Van Time

- 30.7.1 Crew van time may be used to make up the employee's ordinary hours where, at the employee's initiation, the employee is unable to work as required resulting in the employee not working the hours that would otherwise have been rostered.

In these circumstances the crew van time used to make up the employee's ordinary hours will be paid at the employee's ordinary rate of pay and a corresponding reduction will be made to the amount of crew van time paid.

- 30.7.2 For the purpose of this subclause, "employee initiation" will be circumstances instigated by the employee where the notice provided by the employee is insufficient for the employer to mitigate the resultant time short of the ordinary hours or alternative work offered by the employer is refused.

- Employee initiation includes any form of unplanned leave, except for bereavement and family leave, or days where the employee has requested not to be rostered for work and
- notice shall be regarded as sufficient where an employee provides advice of the required circumstance no later than the Tuesday immediately prior to the roster, for the roster cycle in question, being posted.

30.8 Expenses

When undertaking relay working the employee will be paid away from home allowance in accordance with clause 24.3.2 of the agreement. That is, the allowance will be paid for each eight (8) hours, or part of eight (8) hours, calculated from the time of signing on at the home location to the time of signing off at the home location.

31 OTHER WORKING ARRANGEMENTS

- 31.1 If an employee is unable to attend work as required the employee will advise the employee's supervisor, or another authorised person, as soon as possible and as far as practicable, in sufficient time to permit alternative arrangements to be made. The employee shall also advise of the expected duration of the absence and will continue to advise where there are any changes to the expected return to work.
- 31.2 Employees are required to provide details of their usual telephone number(s) at which they may be contacted for the purpose of notifying them of changes to their roster or working arrangement or for call outs. Procedures in relation to the notification of changes will be in accordance with any rostering principles in place or individual arrangements made between the employer and the employee involved.
- 31.3 Subject to operational requirements, fatigue management principles, prior consent of the supervisor and the arrangement being cost neutral to the employer, employees may mutually exchange shifts.
- 31.4 An employee may refuse to work additional hours beyond the ordinary hours or beyond the rostered hours for a shift on a specific occasion due to circumstances where the requirement to work those additional hours would be unreasonable having regard to:
- 31.4.1 any risk to employee health and safety;
 - 31.4.2 the employee's personal circumstances including any family or carer responsibilities;
 - 31.4.3 the needs of the workplace or the employer;
 - 31.4.4 the notice (if any) given by the employer of the requirement to work those additional hours and by the employee of his / her intention to refuse; and
 - 31.4.5 any other relevant matter.

31.5 Guaranteed Hours

- 31.5.1 Unless otherwise provided for in this agreement, the employer shall guarantee work, or equivalent pay, for the ordinary hours.

- 31.5.2 If an employee's rostered hours are less than the ordinary hours the employee may be required to work further hours in that roster cycle necessary to achieve the ordinary hours. In relation to train crew, the requirement to work further hours shall not be applied on designated Rostered Time Off.
- 31.5.3 If an employee declines to work hours as required to make up the ordinary hours, the employee's ordinary hours, for that roster cycle, shall be reduced to the extent of the hours short of the ordinary hours that the employee declines to work.
- 31.5.4 The clearance of any paid leave shall not result in a reduction of the ordinary hours, however, if an employee is absent from work on unauthorised leave without pay the employee will be paid for the hours actually worked in that pay period and the employer will not be required to pay the ordinary hours.
- 31.5.5 Unless otherwise provided for in this agreement, only actual working time shall be used for the purpose of satisfying the ordinary hours' payment. For clarity, overtime, the 70% weekend payments and additional responsibilities payment shall not be used to make up the ordinary hours payment.
- 31.5.6 Employees shall be paid for the full rostered shift where an employee remains available for work but is released from duty early at the employer's discretion.

PART 5 – LEAVE AND ENTITLEMENTS

32 ANNUAL LEAVE

- 32.1 Where an employee's ordinary hours of work are able to be systematically rostered throughout the twenty-four (24) hours of the day and/or the seven (7) days of the week they will be entitled to one-hundred and ninety (190) hours paid leave per year.
- 32.2 An employee temporarily transferred, in accordance with this agreement and for reasons other than workers compensation rehabilitation, to a Monday to Friday day shift arrangement for more than three (3) months may have the annual leave entitlement reduced to one-hundred and fifty-two (152) hours paid leave per year on a pro rata basis for periods over three (3) months that the employee remains on the day shift arrangement.
- 32.3 Leave will accrue weekly, on a pro rata basis, at either the one-hundred and ninety (190) hour per year or one-hundred and fifty-two (152) hour per year rate based on the arrangement of the employees working hours.
- 32.4 Annual leave shall be paid at the employee's ordinary rate of pay.
- 32.5 Leave may be taken in more than one (1) part as agreed between the employer and the employee.
- 32.6 An employee may, subject to mutual agreement, accrue leave up to a maximum of three-hundred and four (304) hours, however, the employer and an employee may also enter into an agreed leave plan that allows leave to accrue beyond the limits provided for in this clause. Where an employee has accrued over three-hundred and four (304) hours of leave, the employer may require the employee to take leave as required in order to return the employee's leave balance to a maximum of three-hundred and four (304) hours.
- 32.7 Where a public holiday falls within a period of annual leave the day shall be paid as a public holiday and not as annual leave.

Where, in this clause, consultation is required between GWA and employees, the employees may, if they so choose, be represented by the RTBU or other representative.

The initiatives are:

40.1 Limited Train Movement

- 40.1.1 Limited train movement, as defined, is the operation of locomotives, under restricted conditions, by persons other than fully qualified locomotive drivers. - 40.1.4 During the term of this agreement, limited train movement may be implemented or expanded, as the case may be, subject to consultation with the employees who may be required to undertake the work.
- 40.1.5 The detail of this consultation shall include addressing issues associated with competency and training requirements together with considerations of location, train weight or train speed parameters.

 - Operation of points;

40.8 Rostering and time and attendance system

During the term of this agreement GWA will implement a rostering and time and attendance software system. It is proposed that this system will work in conjunction with the existing payroll system and will replace the current method for preparing rosters and will eliminate the requirement for employees to complete manual timesheets.

40.9 Consultation on night time road vehicle driving

APPENDIX C – TRAIN CREW ROSTERING PRINCIPLES

C-1 INTRODUCTION

- C-1.1 GWA conducts a business that operates on a twenty-four (24) hours a day, seven (7) day a week basis. The business operates in a challenging and competitive transport environment that requires flexibility, continuous improvement and cost effectiveness to respond to:
- Customer requirements and service levels;
 - The requirements of industries that GWA supports; and
 - Other issues that affect the day to day operations of the business such as emergencies, weather conditions and the needs of fellow employees.
- C-1.2 GWA also acknowledges that employees working in this operational environment have personal needs and obligations that must be accommodated in a rostering system that recognises and takes into consideration:
- Safety & fatigue management issues;
 - Fairness and equity;
 - Quality of life including family and social needs and responsibilities.
- C-1.3 These Rostering Principles have been developed to assist in providing a consistent yet flexible approach to the rostering of locomotive crews across the business.
- C-1.4 These Rostering Principles shall be read in conjunction with, but shall not conflict with any provisions contained within this agreement, in particular the *Working Hours* provisions at clause 29 and *Relay Working* provisions at clause 30.
- C-1.5 They are also to be read in conjunction with procedures for the management of fatigue. In cases where there is a conflict between satisfying the requirements of either these Rostering Principles or fatigue management procedure the latter shall prevail in any case where such a conflict is likely to increase the potential for a workplace hazard. Rostering shall also comply with relevant occupational, health and safety legislation.

C-2 CONSULTATION

- C-2.1 The needs of the business and the preferences of employees may vary between Depots. These principles are based on a consultative system where Depot specific rostering guidelines may be developed to consider and accommodate these varying needs and preferences.
- C-2.2 Each Depot shall establish through their normal depot level Consultative Committee, a consultative process which allows for employees to participate in developing Depot guidelines and providing input on ongoing rostering issues. This process may also be used to assist in identifying, evaluating and implementing rostering initiatives.
- C-2.3 This consultative process will include the local management / rostering staff and employee representatives, selected by their fellow employees.
- C-2.4 If, at a local consultative level, it is considered that a separate rostering consultative process should be established, for either regular or specific purposes, then this may occur.

C-3 DEPOT GUIDELINES

- C-3.1 Depot guidelines are to be developed which provide specific rostering practices to meet the operational requirements and rostering preferences of employees at each Depot.
- C-3.2 These guidelines shall be developed through the consultative process established at each Depot and should consider and address both guide and operational roster issues.
- C-3.3 Depot guidelines will be communicated to relevant employees in the Depot including new and relieving employees.

C-3.4 Depot Guidelines – Master Rosters

- C-3.4.1 The depot guidelines may include practices to address Master Roster issues such as, but not limited to:

- when business / operational changes require permanent alterations to the roster(s);
- where fatigue management reviews require changes to the roster(s);
- when management or employee initiated changes are proposed to accommodate an altered distribution of the work and / or time off;

with the intent that local management and relevant employees, through the local consultative process, determine how the proposed changes can be best implemented to accommodate both operational requirements and the needs of the employees affected by the changes.

- C-3.4.2 The depot guidelines shall also include practices to address the rostering of various forms of time away from work, including Rostered Time Off, blank days and weekends off, in a manner which aims to meet the operational requirements of the business and the rostering preferences of employees at the depot.

C-3.5 Depot Guidelines – Operational Rosters

- C-3.5.1 Operational requirements may result in various roster changes including, but not limited to:

- shift cancellations;
- additional shifts;
- changes to shift lengths;
- changes to shift start or finish times.

- C-3.5.2 Having regard for the nature of the operations and employee requirements, the depot guidelines may include practices which address operational roster issues such as the above. These guidelines should include:

- practices to be observed for the provision of notice to employees concerning roster changes during the roster cycle and specifically timeframes for notification of changes to shift starting times;
- practices to be observed by employees concerning the requirements to advise of their inability to attend for duty and their availability for duty at the conclusion of the absence;
- a process to respond to roster changes as a result of changed customer requirements;
- methods to deal with the impacts that operational changes may have on time off;
- a process that outlines methods for staff to work other than their rostered shifts including the equitable distribution of additional shifts and;
- the methods for dealing with cancelled work including whether the employee is still required to report for work as rostered or remain available for duty;
- processes with regard to notice required when employees are required to make up hours in accordance with clause 31.5.2.

C-4 ROSTERED TIME OFF (RTO)

- C-4.1 Employees will be entitled to four (4) Rostered Time Off (RTO) breaks for each fortnight of a roster cycle which will be incorporated into the Master Roster.
- C-4.2 RTO will be shown on the Master Rosters.
- C-4.3 RTO may be moved in the process of creating operational rosters. Such movement of RTO will take place only after consultation with the employee concerned.
- C-4.4 RTO shall only be allocated at the employee's home or temporary home location. That is, they shall not be allocated as part of a rostered rest away from home book off.

- C-4.5 Where possible RTO breaks will be grouped together. Single RTOs will only be allocated separately as a last resort following consultation with the Depot Roster Committee and also taking into account any fatigue management obligations.
- C-4.6 Once the roster for the roster cycle has been posted the RTO can only be moved with the agreement of the employee concerned.
- C-4.7 Where an employee agrees to move the originally designated RTO no overtime payments will be made for work conducted during a break originally designated as an RTO.
- C-4.8 Working on RTO may occur, subject to satisfying fatigue management requirements, where:
- the employee has indicated a preparedness to work during that break; or
 - GWA, having exhausted all other reasonable avenues, may request and the employee may agree to work into, on or out of RTO.
 - Work on RTO will be paid in accordance with the *Additional Hours (OVERTIME) Payments* provisions at clause 21 of this agreement.
- C-4.9 Both the local Manager (or supervisor) and the employee concerned are responsible for ensuring that the employee has had appropriate rest when considering a request for that employee to work on RTO.
- C-4.10 RTO shall be regarded as a fixed minimum period of time rather than a distinct calendar day.
- C-4.11 The minimum duration of a single RTO break will be either of the following periods of time:
- C-4.11.1 **36 hours** from sign off to sign on, or alternatively;
- C-4.11.2 **30 hours** from 0001 hours to 0600 hours the following day.
- C-4.12 In developing and implementing rosters, GWA may, at its discretion, apply either or a mix of the two forms of single RTO breaks to individual rosters.
- C-4.13 In any case of consecutive RTO breaks, each additional RTO break after the first RTO will be **24 hours** in duration following the completion of the first RTO.
- C-4.14 From the commencement of the agreement each employee will be guaranteed at least one (1) full weekend off every six (6) weeks over the roster cycle (A weekend means from 2200 Friday to 0700 Monday).
- C-4.15 Sign off on the Friday may be extended to midnight by mutual agreement with the majority of employees in the depot and where this occurs the sign on time on Monday will not be before Midday.

C-5 OTHER ROSTERING PRINCIPLES

The following sets out principles and provides general considerations in the development and implementation of both Master and Operational Rosters. Different arrangements may be established in the Depot Guidelines, through the appropriate consultative processes.

C-5.1 Master Roster Considerations

- C-5.1.1 Master Rosters will be developed at each Depot which provide a plan of the arrangement of shifts to cover the known work for the Depot. Master Rosters:
- must meet the operational requirements of the business;
 - give due consideration to fairness and equity;
 - provide for sound safety and fatigue management practices; and,
 - consider the requirements and impact of different classifications and other than full time employees at a depot. For example, provide a separate Master Roster at a depot where part-time locomotive drivers or trainees are employed.
- C-5.1.2 The Master Roster will have all permanent and known working in a Depot allocated to lines of work with defined sign-on and sign-off times. The Master Roster will not allocate employees to the lines of work. The Master Roster will be displayed in an agreed cycle format (eg. weekly, fortnightly, monthly).

(Where a 'Blank Line' system or mix of defined work and 'blank line' is implemented then only the defined work plus RTO breaks will be shown on the Master.)

C-5.1.3 The Master Rosters shall be prepared in a manner that ensures the following occurs:

- rosters are as cost effective as reasonably possible;
- fatigue management principles are observed;
- work is allocated equitably across the roster to ensure that employees will work similar numbers of shifts and hours;
- all locomotive crew will rotate through all lines in a roster;
- time off is maximised in consecutive days including equitable access to time off on weekends;
- sufficient flexibility is present in the roster to enable reasonable accommodation of short notice changes to services and employee availability without the need to unreasonably disrupt either currently allocated work or RTO.

C-5.1.4 To meet varying work loads, seasonal changes and variable customer requirements it may be necessary for some Depots to use multiple Master Rosters.

C-5.1.5 Posting of Master Rosters

C-5.1.5.1 Where practical, proposed changes to Master Rosters will be posted, for perusal, comment and review in sufficient time so that the final Master is available fourteen (14) days in advance of implementation.

C-5.1.5.2 Circumstances may exist (such as changes to customer requirements at short notice) where it may not be possible to post the Master Rosters within this timeframe. In these circumstances new Master Rosters will be posted as soon as practical. Where there has been insufficient time for consultation on Master Roster changes prior to implementation, this shall occur at the earliest possible opportunity with any refinements to the Master Roster being implemented as soon as possible.

C-5.1.5.3 As far as reasonably practical, the depot manager shall consider and make necessary arrangements for any employee whose family responsibilities may be adversely impacted by a short notice Master Roster change.

C-5.1.6 Rostering of Shifts

C-5.1.6.1 Shifts on the Master Rosters will be arranged within the parameters of the shift lengths & breaks prescribed by the *Working Hours* provisions at clause 29 and *Relay Working* provisions at clause 30 of this agreement.

C-5.1.6.2 Consistent with clause 29.6.4 of this agreement, Master Rosters shall be prepared to ensure that breaks are provided for after particular consecutive shift patterns as follows:

- a break of at least thirty-six (36) hours after being rostered to work four (4) consecutive shifts of ten (10) hours or more.
- a break of at least thirty-six (36) hours after being rostered to work more than ten (10) consecutive shifts.

For the purpose of this provision, "consecutive shifts" are shifts where the break between shifts is less than twenty-four (24) hours.

C-5.1.7 Master Roster Feedback

Proposed Master Roster changes shall be displayed in accordance with clause C-5.1.5 for employees to have the opportunity to provide feedback through the rostering committee on the Master and, where appropriate, may suggest changes to the Master Roster, through the consultative process established at their Depot.

C-5.2 Operational Roster Considerations

An Operational Roster will be developed closer to the commencement of the roster period. This roster will more closely reflect the actual operational requirements of the business taking into account circumstances at that time such as customer needs, staffing levels and leave.

C-5.2.1 Posting of Operational Rosters

Operational rosters for the roster cycle will be posted nine (9) days in advance in depots where the work is known; Berrimah, Whyalla, Thevenard and Port Augusta. In depots where the working is variable; Dry Creek and Port Lincoln best endeavours will be made to have the roster posted by the Tuesday before commencement of the roster. Different timeframes may be agreed to at each Depot if it meets the needs of the business and of the employees at the Depot.

The parties realise outside influences in those depots best endeavours to get it out.

C-5.2.2 Shift Changes

C-5.2.2.1 Train working changes and train crew absences can occur on a regular basis and at short notice. These changes may result in shift cancellations, additional shifts, shift adjustments (eg. start times) or changes to shift lengths.

C-5.2.2.2 Where these changes occur as much notice as practical will be given, and consideration will be given to:

- an employee's personal and family circumstances;
- operational requirements;
- depot guidelines established at the depot;
- fatigue management principles, including "time of day" considerations;
- the number of shifts an employee has worked;
- the length of the shifts that the employee has worked; and
- the breaks an employee has had between the shifts worked.

C-5.2.2.3 In the event the employer needs to change the start or book on time of an employee due to late /early trains or other changes to train schedules the employer can do so with the following conditions:

- a) Cannot bring the employees start time forward more than two (2) hours;
- b) Cannot push the employees start time back more than four (4) hours.

If the change to the rostered start time is greater than above the employee has the right to refuse or to accept the new start time. In the event they refuse the start time, the employee will be either offered alternative work within the time limits above or an alternative shift will be rostered.

C-5.2.2.4 Balancing of shifts during the roster cycle may occur due to changed operational requirements. However, an employee who works an additional shift or shifts shall not have his / her rostered shifts balanced with other employees purely for the purpose of reducing the first employee's hours for the roster cycle.

C-5.2.2.5 Subject to operational requirements, fatigue management principles, consent by their supervisor and providing the arrangement is cost neutral to the business, employees may mutually exchange shifts.

C-5.2.3 Clearing of and Returning from Annual Leave

C-5.2.3.1 A key objective of these rostering principles is to provide employees with the highest possible level of certainty, particularly with regard to RTO.

C-5.2.3.2 Arrangements for the clearing of and returning from annual leave can require adjustments to the allocation of work through the roster, including adjustments of the allocation of work and RTO to other employees.

C-5.2.3.3

C-5.2.3.4 Depot Guidelines should address practices for the clearing of and the returning from annual leave. The guidelines should include protocols for employees starting leave, where they resume on the roster and could also include practices where employees are not rostered to start before 0600 hours on their first shift back from leave unless they are prepared to do so.

C-5.2.3.5 Subject to observing the requirements of the *Annual Leave* provisions at clause 32 of this agreement and in particular clause 32.9, the Depot Consultative process shall consider these issues and the collective preferences of the employees having regard for the potential disruption to the allocation of RTO.

C-5.2.4 Interaction between public holidays and RTO

C-5.2.4.1 The general principle is for RTO to be allocated as per the Master Roster. This results in more certainty and less disruption for both the business and employees in each roster. If RTO falls on a public holiday in accordance with the Master Roster, the RTO will not be moved and the employee will be paid in accordance with clause 36.9 of the *Public Holidays* clause in this agreement.

C-5.2.4.2 It is the intention of this principle that RTO is not moved from other days to public holidays as part of compiling operational rosters. This is particularly the case when there is no, or less, Depot work on the public holiday.

C-6 BLANK LINE ROSTERING

Blank Line Rostering is an alternative method of rostering that may be suitable to particular areas of GWA's operations. The key features of Blank Line Rostering are:

- At the time of the roster being posted for a given cycle employees have only their RTO allocated.
- The majority of train crew work is allocated on a daily basis.
- The commencement time of the next shift and the expected shift length are notified to employees involved prior to, during or at the end of the last shift worked.
- In the event that the next shift is not known by the end of the last shift worked then the employee will be advised of their next shift in a specific 'advice period'. In Blank Line Rostering arrangements in place at other rail operators there are two (2) advice periods (AM & PM) each of ninety (90) minutes duration.
- The employee must be contactable during these advice periods in order to receive advice of their next shifts.
- In the event that an employee has not been advised of their next turn of duty by the end of the appropriate advice period then such day / night will be treated as a non working day.

Blank line rostering may be introduced, through a consultative approach, at depots where such a system is more compatible to the nature of the work of the depots.

The following provides suggested arrangements that may apply for a depot with blank line rostering. Where blank line rostering is implemented, the actual arrangements to apply shall be included in the depot guidelines.

C-6.1 Blank Line Rostering is a form of rostering where, at the time of the roster being posted, the working shifts, or some of the working shifts, are not shown on the roster but are progressively added to the roster as the work becomes known and advised to the employees in accordance with specific notification requirements.

C-6.2 The implementation of Blank Line rostering is generally used at depots with constantly changing operations which do not permit rostering of specific shifts one (1) roster cycle in advance.

C-6.3 In depots where a form of Blank Line (or partial Blank Line) rostering is used the Master Roster is exhibited indicating RTO for the complete roster. In this context, "**the complete roster**" means all the work lines on the roster.

C-6.4 Blank Line rostering may take a number of forms including:

C-6.4.1 total blank line where only the RTO is shown at the start of the roster cycle; or

C-6.4.2 a mixed of blank line and known work plus RTO; or

C-6.4.3 a roster showing work days and RTO where the actual shift times for the work days are advised at a later date; or

C-6.4.4 a mix of the above forms.

C-6.5 Notification of Shifts and Shift Changes

The nature of blank line rostering requires specific shift notification requirements to be observed. If shifts are not advised to employees at the time of posting the roster for the particular roster cycle, notification shall be in accordance with the following:

C-6.5.1 The commencement time of a shift and the expected shift length shall be notified to the employee(s) prior to, during, or at the end of the last shift worked; or

C-6.5.2 If the next shift is not known by the end of the last shift worked then the employee(s) will be advised of the next shift, including the expected duration of that shift, during specified advice periods.

Advice periods shall be determined as part of the consultative process to reflect operational requirements and the collective preferences of the employees. The advice periods shall be included in the Depot Guidelines.

As an indication, advice periods used in other operations are:

- employees required to sign on after 2400 hours and prior to 0600 hours the following day must be contacted in the “**AM**” advice period between **0930 hours and 1100 hours** the day before; and
- employees required to sign on after 0600 hours the following day must be contacted in the “**PM**” advice period between **1600 hours and 1730 hours** the day before.

C-6.5.3 Where the employee has not already been advised, the employee must be contactable during these advice periods in order to receive advice of their next shifts.

C-6.5.4 Where an employee has not been advised of their shift in accordance with these notification requirements, such day shall then be treated as a non working period. If the employee is subsequently called to work during this time the employee shall be paid as if working on a RTO in accordance with the *Additional Hours (OVERTIME) Payments* provisions at clause 21 of this agreement.

C-6.5.5 Once employees have been advised of their next rostered shift, such shift length cannot be shortened except by mutual agreement to a minimum of seven (7) hours.

C-6.5.6 Notification of shifts and shift alterations may be advised by electronic or other means.

C-7 NEW ROSTERING DEVELOPMENTS

New rostering developments, including the implementation or alteration of Blank Line Rostering arrangements, will be considered as new concepts evolve or are put forward as part of the consultative process. Where such concepts are being considered employees will be consulted as part of determining the suitability and applicability of the concept to GWA's operations and the collective preference of the applicable employees.

C-8 ROSTERING PRINCIPLES CHANGES AND DISPUTE RESOLUTION

C-8.1 It is an express term of this agreement (see clause 29.11.1) that these Rostering Principles may be varied during the operation of this agreement through agreement with the affected employees.

C-8.2 In circumstances where there is a dispute about the application of these Rostering Principles or agreement cannot be reached on any proposed variation to the principles resolution may be sought through the *Dispute Resolution Procedure* provided for at clause 38.

APPENDIX D – DOO AND REMOTE CONTROL SHIFT LENGTHS

D-1 INTRODUCTION

Driver Only Operations (DOO) and Remote Control operations maximum rostered shift lengths are provided for at clause 29.3.1 of the agreement and the implementation of some specific DOO operations are subject to clause 29.3.3 of the agreement.

This Appendix is included for the purpose of:

- Clarification of maximum shift lengths based on specific operational circumstances (see Section D-2);
- Detailing DOO operations already in place with agreed shift lengths above those provide for in clause 29.3.1 (see Section D-3);
- Detailing a process for implementing new DOO operations, on a case by case basis, in addition to those provided for in clause 29.3.1 that are not specified at the commencement of this agreement (see Section D-4).

It is not the purpose of this Appendix to deal with the many other regulatory and operational considerations that may be relevant to the implementation of DOO and Remote Control operations.

D-2 MAXIMUM SHIFT LENGTHS BASED ON OPERATIONAL CIRCUMSTANCES

D-2.1 Clause 29.3.1 of the agreement provides for DOO and Remote Control maximum rostered shift lengths based on the different operational circumstances that may prevail. This clause also provides that in some cases the maximum rostered shift lengths may be varied as provided in this Appendix.

D-2.2 Maximum shift lengths and descriptions of the operational circumstances are as follows:

Operational Circumstances	Maximum Rostered Shift
DOO Mainline - These are shifts where the majority of the shift comprises of driving on the mainline.	9 hours
DOO Shunt - These are shifts that comprise of various shunting / yard / terminal operations. These shifts may include some minor traversing of the mainline but do not include mainline operations to and from sidings / terminals separate from the depot.	10 hours
Remote Control - These are shifts that comprise of various shunting / yard / terminal operations. These shifts may include some minor traversing of the mainline but do not include mainline operations to and from sidings / terminals separate from the depot.	10 hours
Mixed DOO (mainline & shunt with or without Remote control) on a case by case basis - These are shifts that comprise of mixed mainline and depot / terminal / yard / siding operations. They are to be determined on a case by case basis having regard for the components of work including the amount of driving on the mainline. These shifts shall not usually involve more than 5 hours driving on the mainline.	Up to 10 hours
Like all other train operations shifts, it is a requirement that these DOO / Remote Control shifts may involve other duties such as; train preparation, ground support, car driving, trip servicing, administrative functions etc.	

D-2.3 Clause 29.3.3 of the agreement provides for consideration of DOO / Remote Control shifts greater than those provided for in clause 29.3.1 to be subject to this Appendix. Specific operations with maximum shift lengths greater than those provided for in clause 29.3.1 that are agreed at the commencement of this agreement are detailed in this Appendix (see Section D-3).

- D-2.4 This Appendix relates to shift length considerations for each specified operation and does not convey agreement on any other DOO / Remote Control operations which will be addressed through consultation between GWA and affected employees and, if applicable, the *Dispute Resolution Procedure* (Clause 38).
- D-2.5 Clause 29.3.3 of the agreement also provides that any further proposal for DOO / Remote Control operations will be dealt with through this Appendix.
- D-2.6 It is the clear understanding of the parties that any DOO / Remote Control shifts that are at or less than those provided for in clause 29.3.1 are not the subject of the shift length considerations detailed in this Appendix.

D-3 DETAILS OF DOO / REMOTE CONTROL SHIFTS ALREADY IN PLACE WITH AGREED SHIFT LENGTHS

- D-3.1 DOO shifts already in place:

Depot	Operation	Max. Shift Length
Adelaide	Metropolitan area encompassing Port Adelaide, Islington, Mile End, Pelican Point and Dry Creek (where accredited)	12 hours
Whyalla	Encompassing mainline (Mainline DOO & Remote Control), ore shunter (Remote Control) and hot metal (Remote Control) operations.	10 hours (with the exception of D-3.4)
Port Lincoln	Port Lincoln yard encompassing the Wharf, station yard and locomotive depot.	12 hours

- D-3.2 It is further agreed that if the shift lengths at Whyalla are reduced then it will remain an option to revert to twelve-point-five (12.5) hours shifts in circumstances where crew availability issues arise at short notice to ensure a continuous operation is provided at the Whyalla facility.
- D-3.3 Further to the provision of clause 29.4.3 concerning the fifty (50) minute extension of DOO and Remote Control shifts in the case of emergency or unavoidable necessity, this extension shall not apply to the specific twelve (12) hour shifts contained in the table at D-3.1 above.
- D-3.4 There will be a trial of twelve (12) hour shifts for the Ore Shunter and Hot Metal shifts in Whyalla specified at clause D-3.1. If the employer is satisfied that twelve (12) hour shifts satisfactorily meet operational and safety requirements, and a majority of affected employees agree to work twelve (12) hour shifts, the initiative may be adopted beyond the duration of the trial at the discretion of the employer.

D-4 PROCESS FOR IMPLEMENTING DOO / REMOTE CONTROL SHIFTS ABOVE THOSE PROVIDED FOR IN CLAUSE 29.3.1

- D-4.1 In addition to the agreed operations at Section D-3, GWA may seek to introduce other DOO / Remote Control operations with shift lengths greater than those provided for in clause 29.3.1 during the term of this agreement. In such cases the proposals will be considered on a case by case basis through consultation between GWA and affected employees, taking into consideration GWA's and the employees' requirements.

D-4.2 The DOO / Remote Control Case by Case Process

Stage 1 – At the earliest possible time that GWA proposes to implement a DOO / Remote Control operation that has a planned shift length greater than those provided for in clause 29.3.1 GWA shall advise the relevant employees, in writing, of the proposal.

This advice and the start of the consultation process shall commence no later than the time GWA seeks regulatory (accreditation variation) approvals.

Stage 2 – The case by case consultation process shall include GWA detailing its proposal to the employees and the employees having adequate opportunity to put forward any considerations / issues they might have regarding the proposal.

Considerations / issues that may be canvassed might include (but not be limited to): fatigue management (including the time of day considerations), intervals between shifts, maximum weekly hours, workload, trials and risk assessments.

GWA and its employees are committed to working on practical solutions to any issues raised and GWA shall give reasonable consideration to the issues raised by the employees. This may include modification to the proposal or making other changes to accommodate the employees' concerns.

Once the consultation process has been exhausted GWA shall advise the employees in writing to this effect and detail its intention to commence implementation.

Stage 3 – Having complied with the processes in the first two stages GWA may commence implementation of the proposed DOO shifts unless GWA is notified, in writing, by an affected employee that the proposed introduction is not accepted and remains in dispute.

Where there is a notification of a dispute concerning the proposed implementation, the parties to the dispute shall attempt to resolve the matter through the *Dispute Resolution Procedure* (Clause 38 of the agreement).

For the purpose of this process the *Dispute Resolution Procedure* shall commence at Step 3 (Clause 38.1) and if not resolved at this stage may be progressed to Step 4 (Clause 38.1).

In accordance with the *Dispute Resolution Procedure* (Clause 38.6) while the matter is being progressed through the procedure the status quo shall prevail and the services to customers will be maintained.
